WHY **SERIES**

BEAT STANDALONES

What I've seen across my own **KDP**
catalogue.

1

ONE READER, MANY BOOKS

A reader who finishes book one has a **reason to start book two**. A standalone ends at the last page.

2

PAGES READ =
PAY

In Kindle Unlimited, you earn per page read, counted as **KENP**. More books for the same reader means more pages read.

3

BUILD THE WORLD ONCE

Characters and setting carry over.
Every new book can go **deeper**
instead of starting from zero.

4

LAUNCH

3 TO 5

BOOKS

Don't bet everything on one title.
Publish your first few and **see what
readers respond to.**

5

THEN

**DOUBLE
DOWN**

Your KDP reports show which titles sell and which get read. **Do more of what works.**
